

QUALITY AND FOOD SAFETY POLICY

The Management of ALFRUS S.R.L. following the growth of the reference market, the development of the foreign market, and the increasingly integrated collaboration with the confectionery industry customers, has decided to fully engage in the implementation of the operating and control procedures provided for by the international ISO standards and GFSI, aimed at implementing the continuous improvement of the quality management system and food safety. To this end, the company proposes as its precise intent the achievement and maintenance of the following objectives:

- ✓ create safe products, according to the law and in compliance with the specified quality requirements and applicable technical requirements;
- ✓ respond to customer needs and meet their expectations;
- ✓ ensuring ethical and safety requirements for the human resources employed and paying specific attention to awareness and training, but also by sharing experience and information returning from the market;
- ✓ select suppliers, tools and raw materials of high quality and proven and certified provenance;
- ✓ pursuing continuous improvement of its production processes and the quality and safety of the product supplied;
- ✓ expand the range of products thanks to the acquisition of Coseano's Natural Food
- ✓ increase its market towards the European confectionery industry and become a reference point;
- ✓ Working ensuring eco-sustainability and respect for the environment

Regardless of any other responsibility, Alfrus Management is committed to ensure that this Policy is communicated to all personnel, implemented and maintained at all levels of the organization within the food quality and food safety system compliant with the established **BRC Global Standard for Food Safety** continuously applied and maintained.

Vision:

Further strengthen company's success by combining the values of the family and its territory with technological innovation and respect for the environment.

Values:

Tradition, passion and knowhow. These are the values that every day allow us to achieve our most important goal: processing high quality almonds.

These principles represent the framework commitments for the definition of the objectives to improve the safety, legality and quality of the products produced annually.

"Every single gesture of every single person in the organization helps move forward and improve this project"
